Use our online eligibility guide to find out what support is available to you and your family.

Just answer some simple questions about your situation and we'll let you know if there are payments you can get.

It only takes about 5 minutes and the more info you can give us, the more accurate the results will be.

You don't need to be getting a benefit to use the guide. If you are on a benefit, you can use it to check if there's any other help we can offer.
