

PROVEN RESULTS

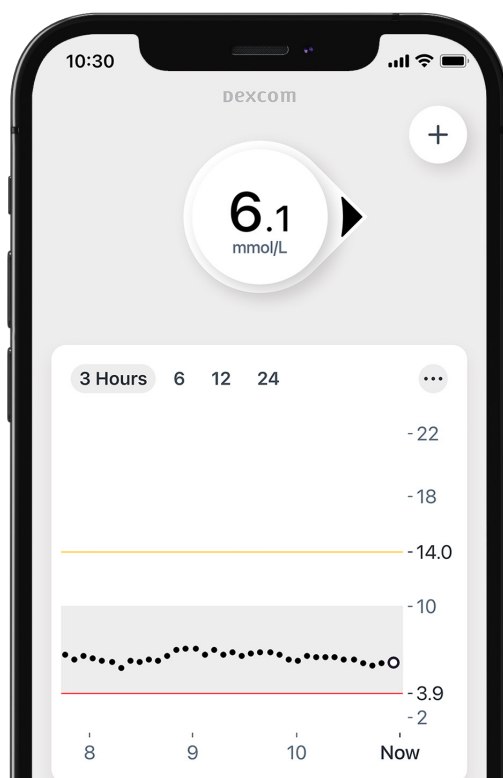

Dexcom G7 empowers you to make better diabetes decisions around the clock, which can lead to some big results.

Dexcom CGM use is proven to:

- ✓ Lower A1C^{†,2-4}
- ✓ Increase time in range (TIR)^{†,2-4}
- ✓ Reduce hyper- and hypoglycaemia^{†,2-4}
- ✓ Improve quality of life^{†,5}

Use code: **G7LAUNCH** to receive **\$5 off** your first Dexcom G7 purchase!

THE POWER OF DEXCOM CGM

Dexcom G7 automatically sends your glucose numbers to your smartphone or smart watch,* so you'll easily know where you're at and where you're heading.

Unlike fingerpricks that give you a number for a single point in time, Dexcom G7 lets you see your glucose data continuously, so you can know when your glucose levels are trending high, low, or when you're good to go.

Dexcom G7 is not currently compatible with the t:slim X2 insulin pump, however the Dexcom G6 system is.

For more information on Dexcom G7, please contact the NZMS Diabetes on **0800 50 226** or at dexcom@nzms.co.nz

nzmsdiabetes.com.nz   

Always read the label and use only as directed. Read the warnings available on nzmsdiabetes.com.nz/resources before purchasing. Consult your healthcare professional to see which products are right for you.

† If glucose alerts and readings from Dexcom G7 do not match symptoms or expectations, use a blood glucose meter to make diabetes treatment decisions.

*Smart device required to display readings on watch.

** Do not make treatment decisions based upon Share and Follow readings. Always confirm with your compatible smart device or Receiver.

‡ Results obtained with a prior generation Dexcom CGM System.
